

The Award of Problemblad 2007-2009 (Studies)

In the issues of magazine Problemblad 2007-2008 were published 28 original studies of 21 composers. Unfortunately, defects in some studies have been found out:

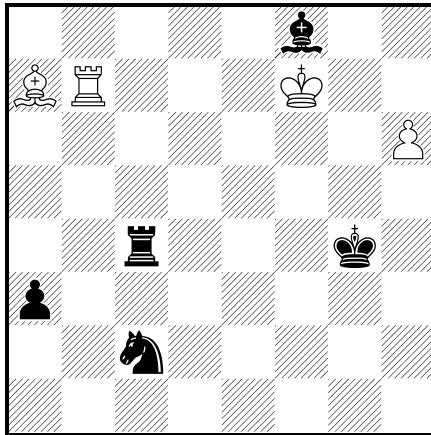

- 1.E.Espen – E235 (Kb8/Kd6) – dual: 3.Sa4 Sa3 4.Sd4+ Kd5 5.Kxb7 ect, wins.
- 2.E.Espen – E244 (Kh1/Kh5) – dual: 15.Kg3 d5 16.Kf4 etc, wins.
3. G.Regniers - E243 (Kc1/Ke5) – dual: 5.Qxg5+-.
4. S.Borodavkin - E246 (Kf5/Kh7) – no solution: 7...h3! 8.Re8 Qxe8 9.Bxe8 Kxe8 etc, draws.
5. L.Topko - (E251 (Ke8/Kg6) – dual: 3.Rxg5 Qg7 4.Rh8 etc, draws.

Also, some studies have full or serious anticipations:

1. G.Josten - E229 (Ka1/Kc6) – was published in Kalandadze 70 JT, 2006
2. N.Mojosovski – E241 (Kf5/Kg8) – was published in “politika”, 1967
3. J.Vandiest – E249 (Kb1/Kf7) – was published in ‘Europe Eches’, 1977

From the remained studies 9 works are selected for the award. The others have not got in award because of weakness of the contents.

The original model stalemate with pin of wR and block of wP. Additional variants 3...Rxd4 and 5...a1Q deserve also attention. It would be desirable to see similar works of the known master often

E233

8...Kg4 9.Bxe6+ Kxh4 10.Bxc4+-] **9.Sf3+ Kd5 10.Bc6#**

The interesting route of a wS comes to the mate. However, the mate picture is created artificial in an initial position.
