### AWARD FINAL

#### 1st INTERNATIONAL INTERNET TOURNAMENT (STUDIES) UAPA – 2014

Special thanks to the Union Argentina de Problemistas de Ajedrez for having appointed me as judge of such an important event. I will take this opportunity to thank the composers and analysts, for their valuable collaboration in the task of control in potential anticipations of the studies presented, also at all participants of this tourney.

Participants: Alain Pallier (France), Richard Becker (USA), Pavel Arrestov (Russia), Iuri Akobia (Georgia), Anatoly Skripnik (Russia), Michal Hlinka (Slovakia) , Luboš Kekely (Slovakia) , Emil Vlasak (Rep.Checa) , Luis Miguel González (Spain) , Darko Hlebec (Serbia), Martin Minski (Germany), Peter Krug (Austria) , Daniel Perone (Argentina) , Vladislav Tarasiuk (Ukraine), Yuri Bazlov (Russia), Valery Kalashnikov (Russia); Vitaly Kovalenko (Russia), Beqa Akhaladze (Georgia) , János Mikitovics (Hungary), Andrezj Jasik (Poland), Marco Campioli (Italy), Franco Bertoli (Italy) , Jaroslav Polasek (Rep.Checa); Daniel Keith (France)

There were 44 studies of 24 composers of 15 countries. Some studies were not been included on this ruling due their anticipations in the main variant. I have also detected some partial anticipations, but I have not considered necessary to indicate them in the comments.

Being a "informal competition", and considering the significant variety of topics addressed by composers, and the good artistic and technical level of the studies, this has allowed me to expand the number of prizes, mentions and accolades. Certainly, it has been a pleasant circumstance for me.

Considering that not affect the overall structure of the studies winners and distinguished, highlighted that in this final judgment, has incorporated a studio with a special mention in the section on "Draw - Studies."
