Красивый 2-х вариантовый этюд, заканчивающийся матами белой пешкой в обоих вариантах. Небольшая дуаль в одном из вариантов не помешала этому этюду победить в разделе.

2 beautiful variants with mate of white pawn, in both cases. A small dual in one embodiment, has not prevented that this study, win the section.

Легкий «воздушный» этюд с острой борьбой сторон, в finale которого белые побеждают превосходящие силы черных.

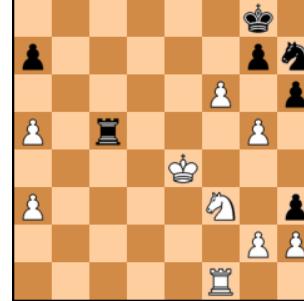

Easy "air" of the study, with acute struggle of the parties, the final of which White wins the superior forces of the black..

Симпатичный 2-х вариантный этюд , в котором в обоих вариантах белые заставляют черного коня совершил дальнее блокирование поля для черного короля. Снижает впечатление форсированность игры и дуали в ходах белого ферзя.

Nice, the two variants in the study, which in both cases white make the black knight to make far-field block for the black king. Reduces the appearance of speeding up the game, and duals in the white queen moves.

Интересная борьба белой ладьи с превосходящими силами черных.

Interesting struggle of the white rook against overwhelming material, of the black.
