

Problem Paradise

Informal Tourney Award

Studies 2018

Judge: Mario G. García

A special thanks to the editors of the magazine Problem Paradise, in particular to the Tournament Director Hiroshi Manabe for having appointed as a judge of such an important event, and also to all participants of this tournament.

The Director sent me the studies for evaluation, with diagrams and solutions in files (Word-and-PGN).

Given the considerable variety of themes addressed by the composers, and good artistic and technical level of the studies, this has allowed me to expand the number of awards, mentions and recognitions.

Participants: Bizya Buyannemekh (Mongolia), Michal Hlinka (Slovakia), Pavel Arestov (Russia), Jan Timman (Netherlands), Luboš Kekely (Slovakia), Daniele Gatti (Italy), Peter S. Krug (Austria), Valery Kalashnikov (Russia), Daniel Keith (France), Peter Gyarmati (Hungary), Andrzej Jasik (Poland), Marco Campioli (Italy), Ilhan Aliev (Azerbaijan) and Franco Bertoli (Italy).

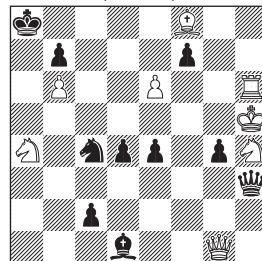

There are 23 studies of 14 composers from 10 countries.

My ranking is as follows.
